

NOTICE

To: All Residents
From: Management
Subject: Improper Garbage Disposal
Date: September 25, 2018

It has been brought to our attention that residents are leaving garbage in the hallways, on the staircases and in front of their buildings. These offenses are considered **VIOLATIONS OF YOUR LEASE**. They are also health and safety issues.

Section XIV, Termination of Lease (6), which states, grounds for termination include, "Serious or repeated damage to the dwelling unit, creation of physical hazards, unsanitary conditions in the unit, common areas, grounds or parking areas of any Public Housing property. This would include throwing any type of garbage out of windows or on the floor or left in common areas."

Please dispose bags of garbage properly in the garbage chutes on each floor. For larger bags of garbage, please take your garbage to the basement of your building.

Thank You

Please help us to keep your buildings sanitary, clean and safe.
