RE: Smoke/Carbon Monoxide Detectors/Batteries

Dear Residents,

With the initiation of safety device checks, there have been repeated removal of fire safety equipment after repairs/replacements have been done. These devices are required to be in place and operational by law. Going forward if any smoke/carbon detectors are found missing or tampered with including removal of batteries that were previously repaired by maintenance, you will be charged a fee to repair each device.

If you are experiencing an issue with any smoke/carbon detectors, please call the office to submit a work order so that any charges pertaining to safety devices can be avoided before the next check.

Thank you,
White Plains Housing Authority
