To: All Residents of White Plains Housing Authority

Re: Smoke Alarms

Dear Residents,

Please ensure that all fire alarms/CO2 devices in your unit are working properly, it is advised that you check them on a regular basis to ensure that the batteries are operable.

DO NOT remove or disconnect any smoke alarms in your unit. If you have an issue with any devices, please call the Housing Authority and we will come immediately to correct any problems.

Every year during inspections, we notice that many residents have disconnected/and or removed the smoke alarms. By disconnecting your smoke alarms you are putting yourself and your family in danger. Please keep your family safe.

SMOKE ALARMS SAVE LIVES!

Sincerely,
White Plains Housing Authority
